THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

The National Environment Act, No.5 of 2019

The National Environment (Environmental And Social Assessment) Regulations No. 143 of 2020

Certificate of Approval of Environmental and Social Impact Assessment

Certificate No. NEMA/EIA/ 17487

This is to certify that the Project Brief/Environmental and Social Impact Assessment received from

M/s: **MINISTRY OF WATER AND ENVIRONMENT**
of **P.O BOX 20026, KAMPALA-UGANDA.**

submitted to the National Environment Management Authority (NEMA) in accordance with the National Environment Act, No. 5 of 2019 regarding:

THE PROPOSED KIBAALE-KIFAMBA RURAL GROWTH CENTRE WATER SUPPLY AND SANITATION SYSTEM

(Title of Project)

briefly described as **THE KIBAALE-KIFAMBA RURAL GROWTH CENTRE WATER SUPPLY AND SANITATION SYSTEM**

(Nature, Purpose)

Declared Investment cost **UGX34,749,008,599**

located at **IN KIFAMBA SUB COUNTY OF RAKAI DISTRICT.**

(District/Sub-county/City/Town/Ward)

has been reviewed and was found to:

**** have significant environmental impacts and the following appropriate mitigation measures were identified and made a condition precedent for approval and implementation:**

(The relevant conditions are attached in the subsequent pages)

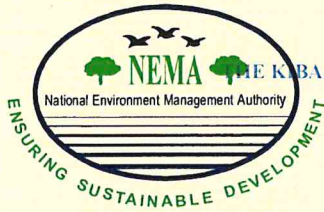

Dated at **KAMPALA**

on **21 JULY 2023**

Signed

EXECUTIVE DIRECTOR (NEMA)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

CONDITIONS OF APPROVAL FOR THE ENVIRONMENT AND SOCIAL IMPACT STATEMENT FOR KIBAALE-KIFAMBA RURAL GROWTH CENTRE WATER SUPPLY AND SANITATION SYSTEM LOCATED IN KIFAMBA SUB COUNTY OF RAKAI DISTRICT (AT GPS COORDINATES UTM WGS84 ZONE 36S 315766 9919720; 36S 320328 9913770; 36S 315426 9914648; 36S 322301 9914509; 36S 323435 9912752; 36S 314937 9914648; 36S 317935 9914775; 36S 317848 9915123; 36S 310362 9908716)

- 1.0** This certificate is issued in accordance with the National Environment Act, No.5 of 2019, the Physical Planning Act, 2020, the National Environment (Environment and Social Assessment) Regulations, S.I No. 143/2020, and any other applicable laws.
- 2.0** In addition to implementing the mitigation measures outlined in the Environmental and Social Impact Statement (ESIS), this **Certificate of Approval** is granted on condition that the Developer, **M/S Ministry of Water and Environment** complies with the approval conditions stated below.
- 3.0** **ADMINISTRATIVE CONDITIONS OF CERTIFICATE**
 - (i) Issuance of this Certificate of Approval is based on the content of/information contained in the ESIS report submitted by **M/S Ministry of Water and Environment**. The developer shall be held responsible for any omissions, falsified information or any other anomalies that are contrary to the provisions of the relevant laws governing the proposed project.
 - (ii) This Certificate of Approval is **VALID for a period of 5 YEARS**, thereafter, this certificate may be revised/varied upon request or when site conditions change.
 - (iii) The project **must commence within the first 24 months** from the date of approval of the validity period, failure of which this Certificate shall be varied, cancelled, or otherwise dealt with by this Authority.
 - (iv) The **Executive Director shall be NOTIFIED** of, and consent sought before any transfer of ownership, variation/alteration of the project design or components, or surrender of this Certificate of Approval.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

4.0 **SPECIFIC CONDITIONS OF APPROVAL**

4.1 **Land Acquisition and Compensation:**

- (i) Ensure that the entire land for the proposed Kibaale-Kifamba Water Supply and Sanitation System is legally acquired in accordance with the Land Act Cap 227 and or other relevant laws of the country.
- (ii) Prior to project implementation, in collaboration with the Rakai District Local Administration, develop and implement a comprehensive resettlement action plan to cater for any Project Affected Persons (PAPs) and compensate the PAPs in a transparent and timely manner.
- (iii) This approval is for the Kibaale-Kifamba Water Supply and Sanitation System located in Kifamba Sub County in Rakai District. Any other developments not assessed/considered at the time of undertaking the Environmental and Social Impact Assessment for this project should accordingly be subjected to a separate Environmental Assessment.
- (iv) Ensure that all project infrastructural set up and related activities are restricted to the area defined by GPS Coordinates and map in figure 1 below.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

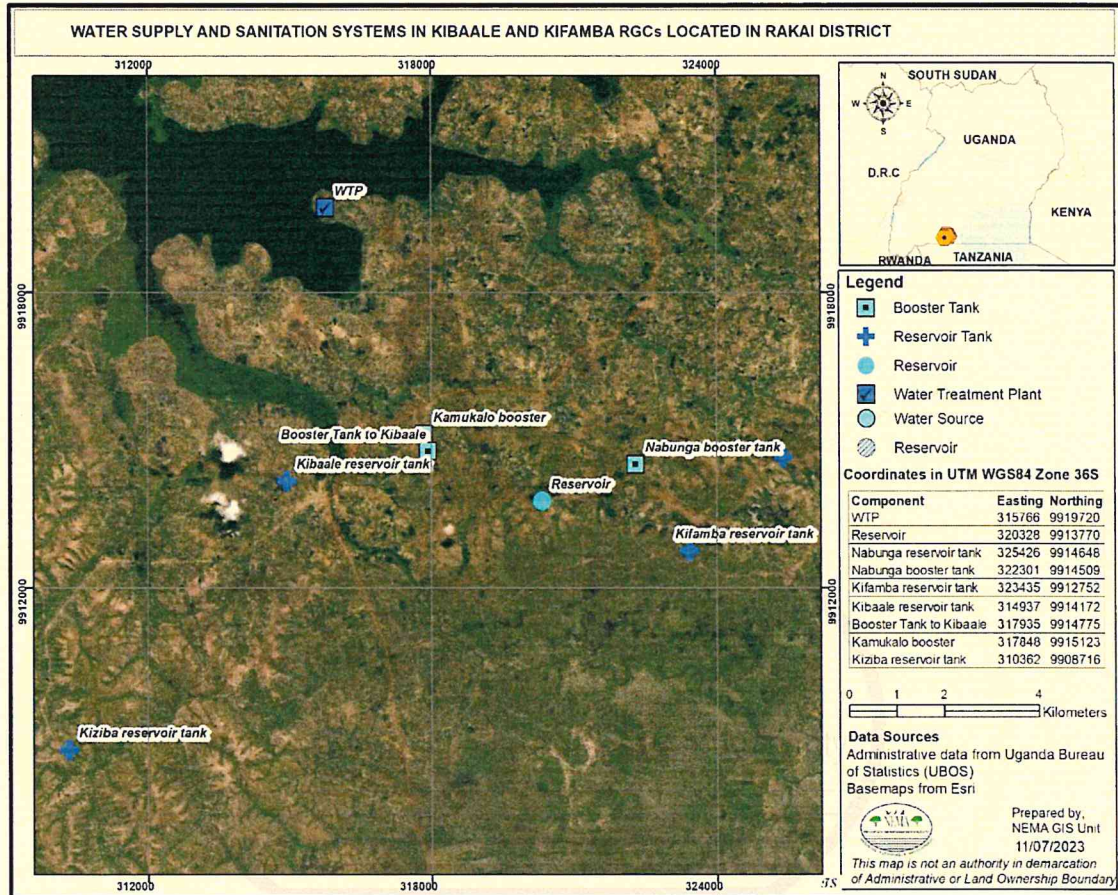

Figure 1: The location map of the Kibaale-Kifamba water supply and sanitation system

4.2 Management of fragile ecosystems and water resources:

- Put in place measures, including catchment protection actions, to protect the water supply source / catchment from encroachment / degradation; in accordance with the Water Act, Cap 152.
- Ensure conservation of biodiversity including indigenous and endangered tree species in the project area; and replant similar tree species in safe places within the project area, to replace those trees that are inevitably destroyed due to project implementation.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

- (iii) Implement appropriate soil and water conservation strategies compatible with the landscape of the area.
- (iv) Landscape the project sites with appropriate greenery including camouflaging the project installations to blend with the background environment.
- (v) Put in place measures to ensure maintenance of environmental flows of ground water from which the project is sourcing water, including regulating water pumping regimes to take into account rate of groundwater recharge.
- (vi) Undertake detailed hydrological and geotechnical studies to inform the detailed project design; wherefore the results of these studies are taken into account to inform project design / implementation.
- (vii) Institute mechanisms and protocols to regularly monitor the ground water table to identify and address any project-induced impacts on the groundwater quality and quantity within the project area.

4.3 Construction and design:

- (i) Adhere to the building codes relevant to this category of structures and installations established as part of the Kibaale-Kifamba Water Supply and Sanitation Project, in accordance with the Building Control Act, 2013.
- (ii) Incorporate in the project design and implementation, measures to minimize damage to preexisting water supply infrastructure, including water supply pipes networks.
- (iii) Liaise closely with Authorities responsible for provision of public utilities including water supply, roads / transport infrastructure, electricity transmission, and telecommunication, amongst others, to identify such public utilities or infrastructure in order to avoid disrupting their functions, services and access by the general public.
- (iv) Put in place adequate soil stabilization and erosion control mechanisms within the project area.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

- (v) Use appropriately and specially designed trucks to transport project-related materials and different kinds of construction waste, in order to prevent littering, spillage and leakage of such materials.
- (vi) Maintain a sizeable proportion of greenspace and preserve indigenous species of trees on the project land, and plant these in places which will not be used.

4.4 **Relevant Approvals:**

- (i) Obtain all the necessary permits and approvals to operate the project, such as development approvals from the Directorate of Water Resources Management, Rakai District Local Government, workplace permit from Ministry of Gender, Labour and Social Development, among others.
- (ii) Liaise with the Planning Department of the Rakai District Local Government to develop an Area Action Plan for the project, including modalities of monitoring its implementation, and be sure to share this plan with all the relevant institutions, including this Authority.
- (iii) Adhere to and comply with the legal requirements for **easements** for the area as provided for by Rakai District Local Government area planning provisions. In executing this project, the environmental management and monitoring plan (EMMP) shall be adhered to at all times, in accordance with section 122(3) of the National Environment Act, No. 5 of 2019.

4.5 **Occupational Health & Safety:**

- (i) Put in place appropriate and/or adequate on-site sanitary facilities separate for the respective sex of project site workers, in accordance with the Public Health Act Cap. 281.
- (ii) Enlist and employ qualified persons to handle workers' occupational health and safety, community affairs and environmental issues.
- (iii) Accord all employees (including contractors / subcontractors) decent working conditions and clear terms and conditions of employment, in accordance with the Employment Act, 2006, and the Employment Regulations, 2011.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

- (iv) Ensure workers are provided with appropriate personal protective equipment (PPE) and enforce the use of PPE at all times by workers on duty.
- (v) Comply with requirements of the Occupational Safety and Health Act, 2006 with regard to occupational hazards during the construction and operational phases of Project.
- (vi) Institute robust housekeeping and environmental management practices at the project site to maintain a clean and healthy environment as required under the National Environment Act, 2019.
- (vii) Institute first aid support protocols (including having in place first aid kit or resident medical practitioner) to deal with medical incidents/traumas; and put in place appropriate and comprehensive disaster-preparedness and emergence response plans, which should be well known to the workforce and relevant authorities and be sure they are informed by proper environmental risk assessments.
- (viii) Conduct induction and refresher training to the contractor and sub-contractor teams on the Environmental and Social Safeguard policy, any other applicable laws, regulations, and standards.
- (ix) Put in place measures to inspect project components in order to detect malfunctions and take remedial action in case of malfunction or departure from the anticipated functionality of project components.
- (x) Put in place measures to ensure that workers and the communities are not exposed to harmful emissions as a result of project activities and ensure that any emissions are within the thresholds established under the East African Standard for Air Quality Specification (EAS 751:2010).
- (xi) Maintain the project area as a NO SMOKING zone while displaying clear legible signs reading "**NO SMOKING**" at conspicuous locations; and any exceptions instituted in accordance with the Tobacco Control Act, 2015.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

4.6 Social Aspects:

- (i) Ensure that there are mechanisms to employ from within the project host community, persons with appropriate skills and competences, especially women and the youth (while avoiding the use of child labour).
- (ii) Put in place awareness and prevention program for Sexually Transmitted Infections (STIs), Hepatitis B and HIV/AIDS, Covid-19 disease for the workers.
- (iii) Put in place a grievance handling mechanism to manage conflicts which may arise with the community during project implementation.
- (iv) Conduct induction and refresher trainings to the contractor and sub-contractor teams on the environmental and social safeguard policy measures and any other applicable laws, regulations and standards.

4.7 Waste Management and Pollution Control:

- (i) Institute strict house-keeping and environmental management protocols to prevent littering, misuse, and damage of the environment around the project area.
- (ii) Put in place appropriate facilities at strategic locations to handle sanitary waste, in accordance with the National Environment (Standards for Discharge of Effluent on Water or on Land) Regulations, S.I. 153-3.
- (iii) Put in place mechanisms for handling both hazardous and non-hazardous waste generated from project activities, in accordance with the National Environment (Waste Management) Regulations, S.I. No. 49/2020.
- (iv) Ensure not to use single-use plastic bags below 30 microns and any unlabeled plastics anywhere on the project site, in accordance with Section 76(1) of the National Environment Act No. 5 of 2019.
- (v) Put in place mechanisms to minimize noise and vibration from the operations and/or from noise generating equipment in accordance with the National Environment (Noise Standards and Control) Regulations, S.I. No. 30/2003.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

- (vi) Put in place measures to ensure that both surface and underground water resources are protected against contamination and/or pollution.

5.0. **GENERAL CONDITIONS OF APPROVAL**

5.1. **Environmental Audits:**

Undertake annual environmental audits as required under the National Environment (Audits) Regulations, S.I. No.47/2020 and carry out the first annual environmental audit by **30th August 2024**.

5.2. **Record Keeping:**

Ensure proper record-keeping as required by the National Environment Act, 2019, and transmit the records to this Authority, as required under Section 78 of the National Environment Act.

5.3. **Unanticipated impacts:**

In accordance with Section 122 & 126(6) (b) of the National Environment Act, No.5 of 2019, monitor and mitigate any other undesirable environmental impacts that may arise during the implementation of the project, but were not contemplated by the time of undertaking the environmental and social impact assessment.

5.4. **Notification:**

- (i) Notify this Authority of any malfunction of any system or project component or failure to comply with the conditions in this Certificate within 12 hours, and the mitigation measures put in place.
- (ii) Notify this Authority in writing of the intent to decommission any components under this project and submit a decommissioning plan three months in advance.

5.6 **Operational Changes:**

Seek written approval from this Authority for undertaking any operational changes to the project or this certificate of approval prior to implementation of such changes.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

5.5. Display of Certificate:

Put in place a signboard in a conspicuous place within the project site premises to **display this Certificate of Approval**, as stipulated in regulation 52 of the National Environment (Environmental and Social Assessment) Regulations, S.I. No. 143/2020.

6.0. DECOMMISSIONING PHASE CONDITIONS

- (i) Decommission all project components at the end of their lifespan, following a decommissioning plan and/or as will be prescribed by the relevant Lead Agencies.
- (ii) Restore all parts of the project site laid bare during project implementation phases; and undertake proper landscaping including revegetation of bare ground surfaces with suitable indigenous species of trees/grass.
- (iii) Report on the completed decommissioning and restoration activities to this Authority.

7.0. SUSPENSION/WITHDRAWAL/CANCELLATION CONDITIONS

This Certificate shall be suspended/withdrawn/cancelled if:

- (a) there is no compliance with any of the Specific Conditions set out in **Section 4.0** of this ESIS Certificate, or any other substantive conditions in this certificate;
- (b) there is unauthorized substantial modification of the project implementation or operations, which may lead to unassessed adverse environmental and social impacts that were not considered at the time of issuing this Certificate of Approval;
- (c) there arise substantive undesirable effects that were not contemplated during the issuance of this Certificate of Approval;
- (d) there is failure to mitigate un-assessed adverse environmental and social impacts as provided for under **condition 5.3** and **condition 5.6** above; and,

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY (NEMA)

- (e) there is need by the Authority for review, on account of change in Government Policy, Standards, new conservation measures by this Authority and/or enforcement of a court order.

DATED AT KAMPALA ON 21ST JULY, 2023

Signed:

EXECUTIVE DIRECTOR, NEMA
